SSPU-5222

**SSPU-5222 List price.....\$2,450.00**

Lund's pick-up truck box is a 2 drawer aluminum lock box system. The upper drawer has an outside dimension of 51" long x 22" wide x 4" high, the lower drawer of 18" long x 22" wide x 10.5" high. Both drawers are available with several lock options and both have foam bottom pad. The top of the SSPU-5222 features a unique top rail that provides storage, and is slotted for tie down straps. Designed to install on either side of the pick-up truck bed with an interchangeable side panel that covers the open area of the wheel well. Powder coated black epoxy finish provides long life and ease of cleaning.

VPB-814D-CK shown w/ optional Combi-Cam key override lock

**VPB-814D List price.....\$139.00**

**VPB-814D-CK List price.....\$196.50**

*(includes VPB-814D Pistol Box Only with standard low profile radial pin tumbler lock)*

Vehicle Pistol Box is 8" wide x 14" long x 3.25" high. It features foam lined sides and bottom and a proprietary cam capture bracket for security. Features a multi-purpose D-Ring which can be used as a convenient "carry handle", an attachment point for HD cable and locks and for our new "quick disconnect" bracket.

**FMPB-814D List price.....\$169.00**

**FMPB-814D-CK List price.....\$226.50**

*(includes VPB-814D & Universal Floor Mount Kit)*

Our new Floor Mounted Pistol Box is designed to mount in rear passenger's seat foot well and comes with with Lund's universal seat mount brackets.

VPB-QD

**VPB-QD List price.....\$44.95**

Our quick disconnect bracket is designed to work with the new **VPB-814D** or **FMPB-814D** pistol box which locks into the QD bracket, aligning with holes in the VPB which are only accessible when the box is unlocked and open. Screw knobs secure the box while allowing quick and easy removal from the QD bracket. This allows simple transfer of the VPB to other locations such as for home or travel storage.

RBV-1620-12E

**RBV-1620-12E List price.....\$599.00**

The RBV-1620-12 is the perfect size to hold and secure a standard "range bag", backpack or computer bag. The box is 20" wide x 16" deep x 12" high and features a lift-off lid and HD rattle free padded handles. The box comes with a 1/2" bottom layer of foam. The unique vault design includes a proprietary full length tongue and groove rear hinge assembly, that allows the cover to be completely removed in confined areas and incorporates a proprietary cam capture bracket to increase lock strength. The lock is a programmable 10 digit electronic lock with key override. The RBV is designed to be secured via cable and lock to something in the vehicle like seat mounting brackets or trunk structure. A heavy duty cable option is available from Lund or from local hardware stores.

SSTB-2042

SSTB-UPKG-GD

SGB-644E

**SGB-644E (44"l x 6"h x 9"d") List price.....\$616.97**

Lund weapon and equipment storage vaults provide a quick and secure way to store firearms, radios, computers and other gear in your vehicles. The unique vault design includes a proprietary full length tongue and groove rear hinge assembly which reduces the chance of prying the vault open at the rear, while allowing the cover to be completely removed in confined areas. LGV's also incorporate a proprietary cam capture bracket to increase lock strength. Our electronic combination lock offers multiple security code levels, a key override and features a low battery warning LED. Units come with a closed cell foam lining to protect the contents and ventilation holes to minimize condensation.

Optional:  
Combi-Cam  
lock w/ key  
override.

Optional:  
radial pin  
tumbler  
key lock.

Foam lined aluminum & steel gun boxes featuring a variety of lock options including; key, electronic combination with key override and digital Combi-Cam w/ emergency key.
